JAVIER FORERO

Senior Data Scientist · AI & Generative AI Strategy · Advanced Analytics · Digital Transformation

Bogotá, Colombia · Remote LATAM | +57 320 838 3457 | mail@javierforero.com | linkedin.com/in/jforero | javierforero.co | YouTube @JavierForeroRuiz | bit.ly/m/jforero

25+	3	71	30+	8	100s
YEARS IN DATA, ANALYTICS & AI	CLOUDS: AWS · AZURE · GCP	AI & DATA CERTIFICATIONS	AI & ANALYTICS PROJECTS	COUNTRIES / GLOBAL HUBS	PROFESSIONALS TRAINED IN AI

EXECUTIVE PROFILE

Senior Data, Analytics & AI leader with 25+ years of experience helping global, regional and local organizations translate complex data, analytics and AI opportunities into scalable business capabilities. I combine hands-on AI/analytics fluency with consulting thinking, product mindset and executive stakeholder management.

Experienced in building AI adoption roadmaps, prioritization methods, MVPs, governance-oriented workflows, intelligent automation and training programs that move teams from idea to execution. Strong record translating technical complexity into executive decisions, scalable analytical products and practical adoption programs. Comfortable operating in ambiguity, influencing matrixed organizations and converting emerging AI capabilities into practical, secure and responsible workflows.

Background built at Johnson & Johnson (Corporate Business Technology and Procurement Analytics Americas), GroupM / MEC, Wavemaker, NEICON and independent consulting, with global roles delivered from London, Miami/LATAM and Colombia.

VALUE PROPOSITION

- Enterprise data strategy: data architectures, analytics platforms, data lakes/lakehouses, governance models and operating frameworks aligned with business goals.
- Cloud & platform leadership: data ecosystems across AWS, Azure, GCP, Microsoft Fabric, Databricks, Power BI, Tableau, SQL and Python for large-scale analytics.
- AI/ML enablement: connect data foundations with ML, NLP, GenAI, RAG, agents, automation and MLOps to move from experimentation to scalable impact.
- Client advisory & consulting: discovery, assessments, roadmaps, presales, proposals, executive presentations and trusted-advisor relationships.
- Data governance & quality: gap diagnostics, KPI frameworks, metadata/glossaries, quality controls and sustainable governance approaches.
- Delivery discipline: Agile, Scrum, MVP, fail-fast, SDLC, documentation and QA to drive complex programs across technical and business teams.

SIGNATURE PROJECTS

Preflex — AI-enabled invoice automation

Technical consulting · GenAI MVP · Procure-to-Pay · 2025

End-to-end solution with GenAI, SAP Business One and SIADOC: document understanding, 2-way/3-way validation, posting, traceability, exception handling and operational KPIs for a scalable MVP.

SAP B1 · Google Gemini · GCP · Service Layer/DI API · Rule engine

Preflex — Demand & production planning

Industrial automation · Operational planning · 2026

AI roadmap connecting forecast, production scheduling, SAP B1, WMS, intranet calendar, rule engine and shop-floor capture, enabling end-to-end traceability without replacing core systems.

SAP B1 · FlowSoft · WMS · RPA · Operational apps

RAC Evolution — Longitudinal brand intelligence

PSYMA B&Optimos · Analytical product · 2025–2026

2003–2025 longitudinal base (19 sectors, 120+ categories), 12 analytical modules, TARGET filters with selective recalculation and AI-generated executive narratives; tool in production (V4, Jun 2026) with cloud-cost efficiency.

Longitudinal base · Dashboards · Gemini · Predictive models · Cloud/S3

B&Optimos — Sample design, 2026 Urban Mobility & Environments Survey

Applied statistics · Bogotá Chamber of Commerce · 2026

Statistical advisor: probability design tracing each contractual technical condition to a computed parameter and its expected precision; empirical parameters from the 2025 edition and a sampling frame built from public sources with Python.

Probability sampling · Sample size · Expansion weights · Python

Yubarta — Circular-economy REP platform

Yubarta / SEC · Architecture & governance · 2026

Technical advisory for a REP platform: proposal evaluation and MVP oversight focused on architecture, governance, traceability, interoperability, security and data scalability.

Data architecture · Traceability · Interoperability

CivisAI — AI for urban planning

Bogotá District Planning Office · POC · NLP · 2024

NLP POC to classify qualitative inputs, structure findings and support evidence-based public decisions, presented within a public-innovation challenge.

NLP · Automatic classification · Qualitative analytics

GenAI for Entrepreneurs

Intelligent assistant · RAG + Gemini

GenAI MVP with Gemini and RAG to summarize official documents and generate business plans and marketing strategies for Spanish-speaking users.

Gemini · RAG · LLMs

Impulso IA 360

Consulting & training model by business area

Model combining diagnostics, use-case prioritization, MVP prototyping, agile sprints and impact indicators to accelerate enterprise AI adoption.

Diagnostics · MVP · Agile sprints · KPIs

Databricks / BNA industry

Advanced analytics · PySpark · Spark SQL

Sales, volume, price, discount and drop-size analysis by industry, with 80% Pareto, customer validations, time series and seasonal adjustment.

Databricks · PySpark · Spark SQL · Time series

Pintacomex — From legacy infrastructure to a Data & AI platform

Data & AI strategy · Mexico · 2025

Assessment of a C/MySQL environment with manual processes, layered target architecture (Lakehouse, ETL/ELT with dbt, governance, RBAC, FinOps), Microsoft Fabric vs. best-of-breed evaluation and a 3-phase roadmap to ML/MLOps. Targets (≥40% fewer entry errors) are expected impact.

Data Strategy · Microsoft Fabric · Data Governance · AI Readiness

SEC / Asoanei — Data model & Power BI

SEC / Swisscontact · Governance · Completed · 2025

SEC mission for Asoanei: unified data model with a 360° view of the producer, governance guidelines, Power BI dashboard and a scalable roadmap with Microsoft Fabric and Purview.

Power BI · Microsoft Fabric · Purview · Data governance

NEICON — Data architecture, BI and AI

Consulting · Clients Postobón and Efecty · 2025

Advisory on modern data architectures (Data Fabric, Mesh, Lakes), Power BI / Microsoft Fabric integration across Azure, GCP and AWS, and architectures for AI deployment (Azure ML, Vertex AI).

Microsoft Fabric · Power BI · Azure · GCP · AWS

Health Insurance Reserving Handbook — IBNR and health reserves

Open knowledge · Actuarial & Data Science · 2026

Open technical handbook: 40 chapters, 7 parts and 5 reproducible Python demos, from Chain Ladder to machine learning, applied to Colombia's health system (actuaria.javierforero.co).

Actuarial Science · IBNR · Python · Streamlit

How AI broke Moore's Law — 68 years of compute

Data visualization · Evidence-based outreach · 2026

72 AI models (1958–2026) across three documented eras, with declared evidence level per model and primary sources (Epoch AI, CC-BY); bilingual interactive piece.

Data Visualization · Data Storytelling · Epoch AI

Official LATAM exchange rates — self-updating pipeline and live dashboard

Own product · Data pipeline · Claude Design · 2026

Open repository that queries 5 central banks daily (Banxico, BanRep, BCRA, BCB, Banco Central de Chile) and publishes versioned JSON with GitHub Actions, health checks and alerts; on top of it, my own dashboard, a Claude Design version and a ChatGPT version (dashboards.javierforero.co/tasas-cambio).

Python · GitHub Actions · Central-bank APIs · Claude Design

Own AI products (javierforero.co/soluciones-ia): VibraWave Studio · Prompt Advisor (GPT) · TOON Converter · MarkDowner · AprendIA (AI LMS) · Complex Concepts Tutor · AI Exam Tutor · NotebookLM knowledge base (RAG) · AI News Assistant · SYNCO · Literary Reflections · DJ StoryMix.

Editorial note: figures for projects in proposal/MVP stage describe solution scope and design, not already-implemented historical impact.

PROFESSIONAL EXPERIENCE

Independent Consultant — Data, Analytics, AI & Digital Transformation · Independent Practice

Nov 2024 – Present

Bogotá / Remote LATAM

- Design AI adoption roadmaps, diagnostics and use-case prioritization methods that move organizations from AI curiosity to execution readiness with clear business-value criteria.
- Create practical AI engagement artifacts: discovery workshop structures, decision frameworks, MVP backlogs, user journeys, adoption plans, governance checkpoints and executive-ready recommendations.
- Structure intelligent automation solutions using Generative AI for document understanding, business rules, exception handling, KPI tracking and integration with SAP Business One, SIADOC, Google Gemini and cloud environments.
- Advise on modern data architectures and reporting ecosystems, including Microsoft Fabric, Power BI, semantic models, data governance, data quality and scalable analytics workflows.
- Design and facilitate workshops, bootcamps and hands-on programs in Generative AI, prompt engineering, BI, chatbot development, KPI analysis, data storytelling and digital transformation.

Consultant — Data Science & Advanced Analytics · NEICON (Clients: Postobón, Efecty)

Jan 2025 – Jul 2025

Bogotá, Colombia

- Designed and delivered analytics solutions for corporate clients, translating business requirements into data models, dashboards, metrics and decision support.
- Supported data architecture decisions and scalable analytical pipelines with attention to quality, traceability, availability and effective business adoption.
- Worked with technical and functional stakeholders to define metrics, adoption criteria and outputs that improved the reliability, clarity and value of decision-making assets.

Senior Manager — Data Science, Corporate Business Technology · Johnson & Johnson

Aug 2021 – Oct 2024

Remote · Global Corporate Functions

- Co-led advanced analytics, AI and automation initiatives for global corporate functions (Finance, Procurement, HR and Legal), connecting business needs with scalable data-driven solutions.
- Acted as a strategic bridge between business stakeholders and data/technology teams, framing problems, defining success metrics and translating requirements into analytical solutions.
- Contributed to enterprise data and analytics frameworks that strengthened collection, governance, synthesis, consistency and alignment with corporate priorities.
- Promoted responsible adoption of AI, GenAI and automation in non-technical teams through applied training, governance practices, documentation and business-oriented enablement.
- Operated at the intersection of business and technology, supporting analytics platforms, identity/access-related data pipelines, expert advisory services and process-efficiency initiatives.

Senior Manager — Data Science & Analytics, Procurement Americas · Johnson & Johnson

May 2018 – Aug 2021

Bogotá, Colombia · Americas Region

- Led performance analytics, BI, predictive and prescriptive analytics capabilities for Procurement Americas, providing forward-looking insights to answer business questions and improve decisions.
- Integrated heterogeneous data streams into dashboards, signals, triggers and reporting processes that increased analysis efficiency and improved decision support.
- Automated recurring analysis and standardized reporting, improving quality, consistency and cycle time for regional leadership deliverables.
- Supported user-experience and NLP initiatives within the analytics team, moving reporting from static outputs toward more intuitive business-user interaction.

Director Digital & Data · Wavemaker / GroupM

Dec 2017 – May 2018

Bogotá, Colombia

- Led a consulting team delivering advanced business analytics, BI and data visualization for diverse clients, with a strong focus on digital transformation and process re-engineering.
- Shaped digital and data transformation strategies, process guidelines and executive analytics that improved campaign, content and business decision-making.
- Influenced stakeholders on a broader view of digital transformation beyond media, connecting technology, data, process change and business outcomes.

Director Digital & Data · MEC / GroupM

Apr 2013 – Dec 2017

Bogotá, Colombia

- Led the Digital & Data consulting capability for Colombia, delivering BI, visualization, digital analytics and performance measurement for corporate clients.
- Developed data-driven campaign optimization, tagging, traffic and reporting practices that improved the usability and actionability of analytics for business users.
- Managed social analytics and digital intelligence capabilities using Brandwatch, Infegy Atlas, Radian6 and Sysomos to support client engagement and decision-making.

Managing Partner — Analytics & Insight LATAM · MEC / GroupM

Oct 2010 – Mar 2013

Miami / Fort Lauderdale, USA · LATAM Coverage

- Led the regional Analytics & Insight HUB for Latin America, supporting global and regional accounts across technology, telecommunications, FMCG, luxury, beauty, leisure and entertainment.
- Coordinated regional Analytics & Insight leaders to adapt global products to local needs, ensure delivery consistency and identify high-value analytics demand.
- Represented LATAM on the Global Analytics & Insight Council, connecting regional priorities with global analytics strategy and product development.

Director — Analytics & Insight, Global Solutions · MEC / GroupM

Aug 2008 – Sep 2010

London, United Kingdom

- Delivered analytics and insight projects from the Global Solutions hub for international clients and multinational internal teams across Europe and global markets.
- Built global analytics offerings, innovative reporting tools and consumer/ROI analysis frameworks by consolidating sources across countries, categories and client portfolios.
- Supported global tenders and new-business pitches through consulting, project prioritization, scope control, workflow management and executive communication.

Research Director · MEC / Mediaedge:cia — Apr 2000 – Jul 2008
Bogotá, Colombia

- Led research, analytics and insight delivery for clients across banking, technology, pharma, FMCG, B2B, B2C, entertainment, retail, education, health, automotive, government and tourism.
- Developed ad-hoc research propositions, brand-equity studies, audience analysis, segmentation, pre/post evaluations and client-facing insight narratives for marketing and communication.
- Participated in industry committees and new-business pitches while improving internal processes, training teams and auditing syndicated studies (IBOPE, EGM, TGI, CICMA).

TEACHING, MENTORING & THOUGHT LEADERSHIP

- Universidad del Rosario — Rosario GSB — Guest lecturer in the executive program "Artificial Intelligence for Leadership" (Advance, 48 h): 3 of the 8 modules, including both closing sessions and the feedback on the final challenges. Teaching evaluation 4.6/5 — the highest score of the 4-faculty team (2026-II).
- Universidad de los Andes — Continuing Education — Guest professor in a corporate program (Applied Intelligence Academy: "AI and advanced analytics to solve strategic challenges"), across three technical modules: Advanced Data Analytics, Building Analytical Prototypes and Advanced Technical Mastery with AI. Confidential corporate client (2026).
- Universidad Militar Nueva Granada — Professor and speaker in diploma programs on generative AI, Legal Tech, document analysis, applied research, tech ethics and responsible AI use. New 2026-II cohort of the AI & Legal Tech diploma: course "Technology Tools Serving Law" (5 sessions of 4 h — 20 h, Sep 7–15 2026).
- Collective Academy — Mentor, AI Productivity Tools: two 40+ learner cohorts in GenAI, automation and data analysis (NPS 70 and 60).
- Collective Academy — Mentor, Business Intelligence & Data Analytics for MBA cohorts (NPS 40 and 50).
- Crehana — Professor of Business Analytics with Python and Excel: applied analytics using Excel and Python.
- Asuntos Digitales — Design and deliver 7 classes/modules across 5 B2B diploma and specialization programs: Commercial Management & Sales with AI (class "Commercial metrics, reporting & decision-making with AI", NPS 85–95 across Jul–Sep 2026 cohorts), Applied AI for Business ("Financial management & KPIs with AI", 5 cohorts —latest Sep 2026), Applied AI for Marketing ("Sales & support chatbots", 2 cohorts) and B2B Operations ("Effective data management", "Metrics & operational efficiency"). Also a Claude Certification program: Live "Analyzing your business metrics with AI" and session "Claude: connections and agents with MCP". Public institutional NPS >85.
- Executive workshops — Connect (Impulso IA 360 program); SEC — Analytics for micro-entrepreneurs; creative agencies (Bumerang, Performer, La Mediática) and industry associations (ACIA/ASOPESAJE).
- Content & frameworks — "5 levels of data analytics" framework; talks such as "AI in Action: From Attention to Conversion"; YouTube channel on AI and data.

EDUCATION

B.Sc. in Statistics · Universidad Nacional de Colombia — 1993 – 1998
Time series, data management, information systems and market research. Thesis: Construction of the Colombian Stock Exchange Price Index using cointegration methods.
Recurring participation in the UNAL International Statistics Symposium (1997–2024): Nonparametric Statistics, Quality Control, Social Research and Data Science.

Data Science Specialization (5 courses) · Johns Hopkins University — Coursera — 2016 – 2018
A Crash Course in Data Science · The Data Scientist's Toolbox and related specialization courses.

Data Science in Stratified Healthcare & Precision Medicine · The University of Edinburgh — Coursera — 2023
Machine learning, NLP, image analysis and probabilistic modeling in biomedicine and health. Credential: coursera.org/verify/8KZGWXDMZ6FA.

Data Science for All (DS4A) — 375 hours · Correlation One / MinTIC — 2019 – Present
Colombia's first generation of data scientists, sponsored by the Ministry of ICT (MinTIC).

Programming for Everybody (PY4E) — Python · University of Michigan — School of Information / Coursera — 2019
Programming fundamentals with Python and data structures.

Business English — advanced level · Saint George International (SGI), London — 2008

English — intermediate level · EF International Language Center — 2004

CONTINUOUS SPECIALIZED TRAINING (SELECTED)

- 5-Day Gen AI Intensive with Google (2025) — Google / Kaggle: LLMs, prompt engineering, embeddings, vector databases, AI agents, domain-specific LLMs and GenAI MLOps with Vertex AI.
- Generative AI with Large Language Models — DeepLearning.AI + AWS: foundations, training, fine-tuning, evaluation and deployment of LLMs.
- Building Agentic RAG with LlamaIndex and LangChain for LLM Application Development — DeepLearning.AI.
- Digital Leadership Program – Google — INALDE Business School; Product Management Foundations & Metrics — Product Institute.

TECHNOLOGY STACK

CLOUD & PLATFORMS

AWS · Azure · Google Cloud · Microsoft Fabric · Databricks · Azure Synapse · Azure Data Factory · Vertex AI · Azure AI

DATA & BI

SQL · Python · pandas · scikit-learn · PySpark · Power BI · Tableau · Looker/Data Studio · Semantic models · KPI frameworks

AI / ML & GENAI

Generative AI · LLMs · RAG · Agents · NLP / Text Analytics · Predictive modeling · Clustering · Forecasting · Prompt Engineering · MLOps · Vertex AI · Google Gemini

DELIVERY & GOVERNANCE

Agile · Scrum · Kanban · MVP / PoC · SDLC · Data Governance · Purview · QA · Stakeholder Mgmt · SAP Business One

CERTIFICATIONS & TRAINING — 71 CREDENTIALS

Highlights 2024–2025: 5-Day Gen AI Intensive with Google — Google / Kaggle (2025) · Agentic AI: Challenges & Opportunities for Leadership — LinkedIn (2025) · Generative AI with Large Language Models — DeepLearning.AI / AWS (2024) · Building Agentic RAG with LlamaIndex · LangChain for LLM Application Development · Introducing Multimodal Llama 3.2 — DeepLearning.AI (2024).

AI, GENAI, LLMS & ML ENGINEERING

Gen AI Intensive (Google/Kaggle) · Agentic AI for Leadership · Generative AI with LLMs (AWS) · Agentic RAG with LlamaIndex · LangChain · Multimodal Llama 3.2 · ChatGPT Prompt Engineering for Developers · Prompt Engineering · GenAI for Business Leaders · Intelligent Automation Foundations · Deep Learning (Optimization & Tuning) · Reinforcement Learning · Model Management & ML in production · NLP with Python (NLTK / spaCy / scikit-learn).

PRODUCT, AGILE & LEADERSHIP

Product Management Foundations & Metrics (Product Institute) · Agile Foundations · Adaptive Project Leadership · Building Agile Capabilities · Design Thinking · Digital Leadership Program – Google (INALDE) · Building a Data Science Team · Making Decisions.

DATA SCIENCE, ANALYTICS & VISUALIZATION

Data Science in Stratified Healthcare & Precision Medicine (Edinburgh) · Data Science for All – DS4A (Correlation One / MinTIC) · Microsoft Azure Relational Databases · Architecting Big Data Applications · Python: Data Analysis & Predictive Analytics · Power Query (Excel BI) · Data Visualization & Storytelling · Managing Data Analysis · Computational Theory · Linear Algebra & Regression Models.

DIGITAL ANALYTICS & MARTECH

Google Analytics Individual Qualification (IQ) · Digital Analytics Fundamentals · Mobile App Analytics Fundamentals · Google Advanced Display · Google Advertising Fundamentals · Certified Expert in MyMetrix (Comscore) · IMS Snapchat · Executive Leadership Flight Path (Twitter).

71 certifications recorded on LinkedIn across AI, data science, analytics, cloud, product and digital transformation. Foundational academic education is detailed in the Education section.

LANGUAGES & RECOGNITION

LANGUAGES

Spanish: Native · English: Professional / Advanced (C1, global environments in London and Miami) · Portuguese: Basic

RECOGNITION

5-Year Service Award — Johnson & Johnson · NPS 70 and 60 in mentoring cohorts (Collective Academy) · LATAM representative, Global Analytics & Insight Council (GroupM).

VOLUNTEERING

SEC Volunteer Consultant — Senior Expert Corps · Swisscontact · Colombia SEC Expert — 2025

The SEC connects Latin American and international experts with SMEs and organizations to improve their competitiveness, quality and revenue through personalized consulting. Two completed missions as a volunteer consultant: Asoanei and Yubarta.
Asoanei mission: design and initial implementation of a unified data model (360° producer view and traceability), governance guidelines (glossary, dictionary and roles), a Power BI dashboard for management and decision-making, and a scalable roadmap (Microsoft Fabric + Purview) with cost simulation by scenarios.

Volunteer — Innovation Campaign · WiSTEM2D Society UL — Aug 2021

Innovation campaign for 10th-grade high school students.
